## When Madoff Victims Collide

By Michael Musto in [Bernie Madoff, Featured, scandal](#)

What are the odds? On Barry Z's show on CBS Digital Radio the other day, two guests realized they'd both been swindled by Bernie Madoff. Cabaret singer Cynthia Crane admitted that Bernie had run away with her cash, while Cafe Tempest author Barbara Bonfigli chimed in, "I was ripped off by Bernie too! One day I found out that my first book was being published by Tell Me Press and two days later I learned that I'd lost all my money!" So what *are* the odds? Very high, actually. Madoff ripped off a whole mess of people!!!
